Honorable Commissioner:

This is a First Supplemental Letter in support of a recently filed petition under §1.182 to replace Patent Owner's "original" Information Disclosure Statement (IDS) in the above-identified matter. The original IDS inadvertently included information that is subject to a protective order in International Trade Commission ("ITC") Investigation No. 337-TA-726 ("726 Investigation").

**I. BACKGROUND**

Patent Owner hereby clarifies that at least one of the protected references was designated as confidential by Patent Owner, and belongs to Patent Owner.

Patent Owner is presently waiting for litigation counsel (Pepper Hamilton, LLP) to identify which of the protected references were designated as confidential by Patent Owner, and to determine whether (after careful review), and where applicable after consultation with third parties who designated the materials as confidential, any of these protected references (designated as confidential by Patent Owner or by third parties) may now be re-designated as non-confidential by Patent Owner.

After Patent Owner receives the above-mentioned detailed identification (including possible re-designations) from litigation counsel, Patent Owner will promptly submit a further Supplemental Letter (or letters) including this information.

Additionally, Patent Owner is attempting to determine (by a letter to the General Counsel of the Patent Office) whether any member of the public has requested a certified copy of the prosecution history in any of the below-identified cases. As far as Patent Owner knows, only Patent Owner has requested a certified copy.
